Summary

Enthusiastic and dedicated Software Developer specialized in MERN Stack, eager to embark on a dynamic web development career. Proficient in technologies like HTML, CSS (Bootstrap, Tailwind CSS), JavaScript, React.js, Express, Node, and MongoDB with a strong emphasis on responsive design principles. Skilled in attention to detail and innovation, delivering high-quality, visually appealing interfaces in fast-paced environments. Experienced in REST APIs, state management, and collaborating effectively in teamwork-driven projects.

Skills

- **Front-End:** HTML5, CSS3 (Bootstrap, Tailwind CSS), JavaScript (ES6+), jQuery, React.js, Redux, Responsive Web Design, Cross-Browser Compatibility, Performance Optimization, Accessibility, WordPress
- **Back-End:** Node.js, Express.js, RESTful APIs, JWT
- **Database:** MongoDB, MySQL
- **Tools & Libraries:** Figma, Adobe Photoshop (Web Design), GitHub
- **Others:** Problem-Solving, Time Management, Teamwork, Adaptability, Verbal Communication

Projects

Trailed - E-Commerce Website (<https://trailed-v2.vercel.app/>)

- Implemented REST APIs and state management using Redux Toolkit for cart operations, including features like a cart page, checkout page, and private routes to ensure secure access for logged-in users.
- Developed a login page connected to Firebase, enabling user authentication, including Google Sign-In for a seamless and secure login experience.
- Integrated MongoDB Atlas to store and fetch product data dynamically, providing a scalable and efficient e-commerce experience.

Sky Freight - Business Website (<https://sky-freight.vercel.app/>)

- Created a visually engaging, single-page site for an air cargo company, including key sections such as tracking, services, about, and testimonials for seamless user navigation.
- Applied best practices in UI/UX design to ensure a user-friendly experience, making the site intuitive and accessible on all devices.
- Integrated strategic CTAs and content aligned with digital marketing trends to drive engagement and enhance conversion potential.

Education

- **Bachelor of Computer Applications (BCA)**
Loyola College, Chennai, India | Graduated: 2022

Course

- **Full Stack Web Development and Designing**
Web D School, Chennai, India | Nov 2024
